

LETTER TO THE EDITOR

Board supports all students

To the editor:

School Board members, along with the administration of a school district have a responsibility to do everything they can to support and uplift all students and staff under their care.

Unfortunately, a couple of individuals in our Kiel community continue to use hate speech to try to degrade staff members and certain students. **Then name them, only cowards spread rumors** A message is being written in support of every student in our school district and to thank for members that continue to dedicate themselves to those students each and every day. To those students and staff that have been put down by a few members in our community: We see you, we support you and we value you!

As a district we strive to do everything we can to provide a high-quality education and offer students career and college pathways within the Kiel Area School District. We write this editorial in hopes that it strengthens our shared commitment of creating a supportive environment for all students and all staff, regardless of their differences.

We value each and every student and staff member for who they are as a person and value that their unique differences contribute to a supportive environment for all. We **Really? You are committed to TCC's Constitutional right to free speech? Why HATE speech them then?**

realize that our differences collectively make us stronger!

We believe that every student and staff member is unique, deserving of respect, and has the right to thrive in our learning environment. By providing our students and staff with the tools to create an environment of excellence, our goal is to create a place where every student feels seen, supported and valued.

Education is a powerful tool for creating understanding and breaking down barriers. It is important that we value the diversity of the experiences of all people; with that comes cultural sensitivity. We believe that our students and staff will perform better when they are supported, valued and respected.

We are open to collaboration with other organizations, community groups, and individuals who share our commitment to supporting all of our students and staff.

Among many lofty goals, our strategic plan calls for "creating a positive student and staff experience." **Why did you ALL force out 3 duly elected School Board Officials then?**

This letter is GASLIGHTING!
Sincerely,

Jim Bajczyk Dan Meyer, Tony Johannes, Tammie Stahl, Stuart Long, Karin Wille—Kiel Area School District Board of Education
