

Eliminating indoctrination

To the editor:

Despite the claims in his unhinged letter to the editor last month, Kiel Area School District (KASD) School Board President Dan Meyer cannot read the hearts or minds of anyone.

If he ever reached out I would have gladly shared my simple goal, which is to eliminate the corruption and ideological indoctrination of children in the KASD, so the students can focus on academics in a safe environment that is free of politics. Is that asking too much?

To achieve this goal I expose the truth, through open records requests and letters to the editor. Why is this so terrifying to some?

Dan Meyer wrote "...he (Matt Piper) has received well over 5,000 pages (might be 10,000 by now)... of open records." I counted Dan, the actual number is not 5,000 or 10,000, or 1,000 or even 500, or 100 or even 50. Other than two expensive stunts our taxpayer-funded attorney pulled just days before the last School Board elections—a scandal for another day—the number of pages of public records that I have received is less than 1 percent of what Dan claims. The real number is only 31!

Dan also claims those 31 pages cost the district over \$15,000. Really?!

Is President Meyer merely creating false and misleading impressions, or is he using his elected position to knowingly make blatantly untrue public statements with the intent to deceive everyone he can possibly reach?

Does Dan know from experience that Dr. Ebert has his back, and is willing to violate state law and withhold open records requests that would expose the truth? And Brad in turn knows the School Board never holds him accountable, lest they all lose their positions?

When I witness Brad or Dan or the School Board deliberately deceive the public, or when a whistleblower reaches out to me seeking justice, I file an open records request to get the truthful information out and expose the misconduct. It is true, that results in a lot of open records requests.

But most of the really important requested public records remain concealed by Dr. Ebert, which is a violation of state law and daily dereliction of duty and daily just cause for dismissal.

When KASD was caught red handed violating student's rights for "mispronouncing" and the whole country gasped at our extremist ideology, dropping the charges was inevitable. Was the School Board posturing as they delayed three weeks and six bomb threats occurred?

President Meyer says it's all

somehow TCC's fault, even though he knows the current School Board stands idle regarding the year-long cover-up of the 2022 "thorough internal investigation," a requested public record that would shed light on the matter.

Dan also didn't mention that it sure was convenient that the bomb threats distracted attention away from the district's ideological extremism, and provided a pretext to label Republicans "haters" without justification. A little too convenient, many say. Insider information was included in the bomb threats, let's not forget.

But insider Dan Meyer freely casts blame and falsely accuses and libels the outsiders of TCC in his letter. A few School Board supporters accused TCC of violence and bomb threats, which is documented at "Latest Updates" at www.TCCWI.org.

And to update the latest KASD ideological scandal, the deceptively conceived top secret LGBTQ+ Club now meets during regular school hours in Raider Time, so parents are kept entirely in the dark. Some students have been denied participation, exposing the lip service of "inclusivity" as a total fraud.

Superintendent Brad Ebert still refuses to disclose the requested public records that would prove if the School Board was negligent in not even discussing obvious safety and liability concerns regarding the controversial Club. (www.TCCWI.org)

Also, the district lawyered up and will not even disclose who the adult is they put in charge of the club! The club whose members self-report unusually frequent experiences of sexual assault and coercion, according to Dr. Ebert.

Are these the "national talking points" School Board President Dan Meyer is so desperate to censure from the editorial section?

Dan, regardless of your inability to respect the rights of the many people who disagree with you, which is why hundreds of ignored petition signers don't waste their time talking with you anymore, the concerned parents and citizens of TCC are your neighbors.

Is it any wonder people are only comfortable sharing their legitimate concerns anonymously when they see the all-too-frequent bullying by School District leaders and their internet cohorts? The bullied in Kiel have rights too, Board President Dan Meyer.

What needs to happen in the KASD to create a learning environment for our students that is free of corruption and political indoctrination? Where should we start?

Matt Piper
