why doesn't DeTroye reveal she is Dr. Ebert's sister?

Dear Members of the KASD School Board,

I am writing to you all with a few concerns/questions that I have regarding the recent news of **Dr. Ebert's contract being put to a vote to see if it will be renewed or not**. My **not true** first concern involves the email that I forwarded to all of you with this email. Last night, I sent Mr. Olm an email and I have yet to receive a response. Do you have protocol for your board members, especially the president, to follow when it involves responding to emails? If so, what is that protocol? **How long do I have to wait to hear from Mr. Olm?** I would think that given the recent news of this potential contract termination and the letter that was in the Tri County News signed by over 100 staff members, the board president would be available and responding in a timely manner to concerned parents of the KASD. I know for a fact that many have emailed Mr. Olm and not received any sort of response. This is our school board president?? **What a joke he is. How did he get into this position? How did the rest of you let this man become the president of the school board?**

she wrote him at 9:03 last night

Another concern that I have is the fact that over 100 staff members signed the letter in the newspaper. **They are prepared to leave the KASD if Dr. Ebert is terminated.** What is this school board's plan for Jan 5th and beyond when we don't have enough staff to teach our children? Will you all be teaching until you get new people hired? **Oh wait, nobody will come to Kiel once this happens so you won't have anyone to hire.** Just some things to think about. I would expect the plan to be emailed back to me so that I can prepare for next week if in fact, Dr. Ebert will be gone. I am sure Mr. Olm has this all figured out as the president of the board. **again, just not truthful**

nice lady her school rates 50/100

Speaking of the fact that Dr. Ebert may be terminated, if this goes through on the 4th, I can assure you that I have 20 plus families with more than 1 child that attend the KASD that will pull their kids immediately. I am sure Mr. Olm can do some quick math and figure out that the 40 plus kids that I know of (not including others who I haven't personally talked to) won't be good for the budget of the KASD. That's all he's concerned with, right?

threats?

I have so much more to say but I will save it for the meeting should it be needed. I can promise that if this gets to a vote on Jan 4th, I will do everything in my power to recall Mr. Olm as the board president and any other members who vote against renewing Dr. Ebert's contract. You will lose students and staff by the handfuls if this goes through. I believe it is time for Mr. Olm to either step up and do his part as the board president by standing behind his accusations/plan or step down from a position he didn't belong in in the first place. I look forward to hearing from you all,

threat or coercion?

threat or coercion?

Kristin DeTroye, Brad Ebert's sister is Principal at Cooper Elementary School which rates a pathetic DPI overall score of 50/100!!!!

Worse than Kiel High at 53/100!

And she's telling our elected school board how to do their job?

Who do Ebert's think they are?
