Hello Everyone and good morning,

I sure hope that you and your family are well.

I have been asked by the School Board to share a message (see below) with you that the School Board wrote on Wednesday night in reference to the Title IX investigation and surrounding events that we went through at the end of last year.

As you already know (unless you are new to our district), **this case was closed back in early June**. Since then, a few members of our community have asked questions about the case.

Please read below and thank you for your continued support of our students and staff; great job supporting our kids this week during Homecoming Week.

Have a wonderful Friday,

Brad

Message from School Board (PDF also attached):

October 5, 2022

Dear parents and community,

The Kiel Area School District Board of Education is sending this communication to address the process followed, as outlined in board policy, during the Title IX investigation that took place last Spring. The Board discussed this situation again because a few members of our community have asked questions about it.

**The Board conducted a thorough internal review of the process and learned that district staff followed board policy.** The Board has also directed the curriculum committee to consider and determine policy modifications to better clarify certain parts of the policy, as well as consider adjustments to some of our procedures.

We as a Board support our Superintendent and staff and appreciate their efforts throughout this complex situation.

**There will be no further communication regarding this case; as far as the School Board is concerned, this matter is closed.**

Sincerely,

Kiel Area School District Board of Education
